Re: Omeath Hotel, Co. Louth

To Whom it may concern,

I can confirm that Minerex Environmental have completed a contract to satisfy the requirements of Louth County Council with respect to the above proposed development. The contract involved a desk top survey of the site and well audit, a geophysical survey of the site, appointment and co-ordination of a drilling contractor, pumping tests, water testing and reporting of results.

I found Minerex to be professional, courteous and helpful at all times and worked extremely closely with ourselves to meet the deadlines set by us. I would have absolutely no hesitation in recommending them and their services for other schemes.

Yours sincerely,

Ronan Sheehy *BEng MSc CEng MIEI*
Director
