

23<sup>rd</sup> February, 2010

Ms. Jenny Rush,  
Minerex Environmental,  
Taney Hall,  
Eglington Terrace,  
Dundrum,  
Dublin 14,  
Co. Dublin.

**RE: Reference**

TO WHOM IT MAY CONCERN

We can confirm that Minerex Environmental have carried out Hydrological & Hydro-Geological and Soils & Geological Impact Assessments for three major road schemes in Sligo including:

- The N17 Tobercurry Bypass;
- The N4 Cloonamahon to Castlebaldwin Realignment, and;
- The N17 Collooney to Tobercurry Realignment;

In brief the following have been the main components of their assessments:

- Baseline Studies and review of geotechnical ground investigation data;
- Assessment of Impacts;
- Proposal of Mitigation measures;
- Assessment of Mitigation measures;
- Site specific assessments including piezometric installations at environmentally sensitive sites;

We have found their work to be of a high standard and would have no hesitation in providing a reference.

Yours sincerely,

**Fergus Meehan, CEng**  
**A/Executive Engineer**
